SESSION 5: GLOBAL TRENDS IN DIGITAL PRINTING & FLEXIBLE PACKAGING

Yoav Lotan
Business Manager, Asia Pacific & Japan
HP Indigo Labels

With the two worlds of packaging and digital printing getting closer every day now is the time to explore new opportunities and trends that are emerging globally in digital packaging. Yoav will discuss the latest trends and innovations available that open the world of digital printing to all brands.

Joseph Foster MAIP
Co-Founder & Director
OF Packaging

One of the fastest growing segments of the packaging industry, flexible packaging combines the best qualities of plastic, film, paper and aluminium foil to deliver a broad range of protective properties while employing a minimum of material. With the latest challenges facing us regarding sustainability in packaging Joe Foster will discuss the future of flexible packaging and the amazing new trends, designs and materials that are being developed across the world.
